While One Piece anime had the most episodes released in 2014, it had the fewest number of episodes released in 2021. Therefore, it is normal for it to have the lowest number of episodes in the 2021 because the dataset doesn't include the entire year of 2021. 1999 is the year with the least number of episodes released after 2021.

One Piece Mean Rating of Each Year

One Piece was most watched in 2015 with an 8.202083 rating, and least watched in 2012 with a 7.367347 rating. On average, the rating has been around 7.

2015

One Piece's Max&Min

The most watched episode of the One Piece anime is "Kanashiki Kettou: Luffy tai Sanji (Kouhen)." The least watched episode is "Going into Action! The Implacable New Admiral of the Fleet." The difference between the most and least watched episodes was least in 1999 and highest in 2017.
